**Project Summary:**

Gateway Farmers Market, Inc. was approved for up to \$220,000 in state funds and up to \$61,500 in county funds to construct a 12,000 square foot regional farmers market and renovate an existing building that will house a commercial kitchen.

For more information about this project, contact Amy Milliken at 270-782-2760 or amy.milliken@ky.gov.

The project will be located in downtown Bowling Green and will provide fresh foods and horticultural products to South Central KY and surrounding areas. In addition to the farmers market, it will contain a bulk produce auction and a commercial kitchen.

Existing farmers markets in Warren County are at capacity, and this project will allow vendors from Warren and surrounding counties to have a venue for their produce. The commercial kitchen will allow farmers to add value to their products, and the fresh produce auction will provide larger producers an outlet for their goods.

The applicant states that the project will benefit at least 41 farm families the first year.
