

*These guidelines represent one of 11 investment areas within the **County Agricultural Investment Program (CAIP)** to provide Kentucky agricultural producers cost-share assistance on practices that increase net farm income and opportunities to try new/innovative technologies or systems that improve farm efficiency and productivity.*

Funded participants shall adhere to all local, state, and federal rules and regulations.

A. Fencing

Prerequisites:

- Producers applying for boundary/perimeter fencing shall conform to the state fencing law, as set out in KRS Chapter 256.
- Producers shall provide a FSA Farm Map or a PVA Farm Map with the total distance of the fence being built drawn on the map.
- Administrators shall require agricultural justification for reimbursement of fence.

Note: There is no livestock requirement for this investment area.

Eligible Cost-Share Items:

For boundary and interior fencing, including perimeter fence, rotational grazing, predator fencing, water source protection, forest management, etc.

1. Posts, fences, including woven and wire fencing
2. Interior fencing, temporary fencing and plank fencing is eligible
3. Gates
4. No mechanized equipment will be eligible, except as provided by rental or contract, with the exception of post drivers
5. Post drivers
6. Fence chargers and supplies
7. Ground rods, lightening detectors
8. Documented, hired labor
9. Contracted site preparation and equipment rental
10. Rotational Grazing Starter Kit: Includes solar charger, temporary ground rod, 4-1 inch fiberglass posts with pins, 100-ringtop posts, high conductivity polywire, voltmeter, grazing stick, electric fencing manual

B. On-Farm Water

Eligible Cost Share Items:

1. **Water Source Enhancement/Development**

Includes materials, parts, equipment, contracted labor, drilling and equipment rental for the development and/or establishment of the following on-farm water systems:

- a. On-farm ponds
- b. Subsurface aquifers and wells
- c. On-farm perennial springs
- d. Construction of small stream water basins
- e. Cisterns for farm usage
- f. Water hook-up to city/county water lines for farm usage, including water meters
- g. Small water treatment facility to treat service water for livestock

2. **Water Movement** – permanent or portable

- a. Waterers, automatic waterers
- b. Piping, water lines
- c. Water storage tanks (above & below ground)
- d. Irrigation equipment
- e. Pumps, regulators
- f. Shut-off valves
- g. Gutters for water harvesting
- h. Other water delivery system equipment

3. **Environmental Stewardship** - Costs necessary for the installation of drainage systems for improved soil drainage (excludes motorized vehicles)

- a. Subsurface Drainage – Tiling (including tile gates)
Note: Participants intending to use this cost-share item who also participate in USDA programs should contact FSA to ensure compliance with Highly Erodible Land and Wetland Conservation Compliance, which is required for USDA program compliance. FSA will forward requests to NRCS for evaluation.
- b. Surface Drainage – Grassed Waterways, including fescue and rock outlet, for prevention of erosion/run-off
- c. Documented, hired labor
- d. Contracted site preparation and equipment rental

Exclusions:

- Eligible equipment does not include purchase of construction or drilling equipment.
